About me

- I already was described by the CEO of the company as:

...He is an extremely talented young man, with a strong desire to learn and overcome challenges. An expert in Angular, his code is always of high quality, and he works very well in a team. Igor has the ability to motivate those around him, keeping the work environment positive with his high spirits and friendliness

- I'm half Portuguese half Brazilian
- I see myself as a senior developer in 5 years
- I studied in 9 different schools my whole life
- I already went to national Math competition
- I like Greek philosophy
